GENERAL CHARACTERISTICS:

Best® - K is a foliar double action Phosponate fertilizer containing Phosphorous and Potassium. By being a rich source in said nutrients and due to the presence of phosphorous in the form of Phosphite ions, BEST® promotes plant vigor, root growth, increases flowering and fruit set.

Best® - K is effective for the strengthening and stimulation of the natural mechanism of self defense of the treated plants; particularly in the stem, leaves, and roots in turf and ornamentals.

Best® - K provides greater nutritional and stimulant effect by its systemic mode of action.
