

**PRECAUTIONARY STATEMENTS  
HAZARD TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

**MAY BE FATAL OR HARMFUL IF SWALLOWED**

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking. Do not take internally. Avoid inhalation of vapor, dust or spray mist and contact with eyes, skin or clothing. If clothing becomes contaminated, remove and wash separately from household laundry before re-use.

**FIRST AID INSTRUCTIONS**

**IN CASE OF EYE CONTACT:** Flush eyes immediately with flowing water for at least 15 minutes and consult a physician if irritation develops or contact a poison control centre.

**IN CASE OF SKIN CONTACT:** Wash with soap and water.

Remove contaminated clothing and launder separately from household laundry before re-use. Consult a physician if irritation develops or contact a poison control centre.

**IF SWALLOWED; DO NOT INDUCE VOMITING.** Give water or milk. Consult a physician immediately or contact a poison control centre.

**IF INHALED:** Remove person to fresh air. Assist breathing if necessary. Consult a physician immediately or contact a poison control centre. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

**STORAGE AND DISPOSAL**

Do not contaminate domestic or irrigation water, lakes, streams and ponds by the cleaning of equipment or the disposal of wastes. Clean spray equipment thoroughly after use.

**DO NOT STORE AND TRANSPORT NEXT TO FOOD AND ANIMAL FEED**

**DO NOT REUSE THIS PACKAGE**

**STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets. Do not ship or store near food, feed, seed, fertilizers and pesticides. Store in cool, dry, locked, well-ventilated area without floor drain. Herbicides should be shipped or stored separately from other pesticides to avoid cross-contamination. SURF® may be stored for a minimum of two years at any temperature without loss of activity.

**DISPOSAL**

**PESTICIDE DISPOSAL:**

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:**

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**Non Ionic Spreader Sticker Adjuvant for  
improving weed control**

<b>Active Ingredient:</b>	<b>% W/W</b>
Alkylphenoxypolyethoxy ethanol .....	20.00 %
Inert Ingredients .....	80.00 %
Total: .....	100.00 %

**Net Contents:** 2.5 Gallons

**KEEP OUT OF REACH OF CHILDREN  
READ THE LABEL BEFORE USING  
KEEP AWAY FROM FOODSTUFFS**

See left panel for additional precautionary statements.

**SURF®** spreader sticker adjuvant is a non-ionic water soluble product that enhances the effectiveness of agricultural chemicals.

**HOW IT WORKS**

**SURF®** reduces the surface tension of the spray and increases the adherence of plant protection products to the leaf surface, preventing the product from dripping off. When **SURF®** is added to a spray mixture, foliage wettability is greatly improved on the surface of either "waxy" or "hairy" leaf surfaces or buds. The adherence qualities of **SURF®** result in longer spray activity. The absorption of post-emergence herbicides is improved by the addition of **SURF®**. With **SURF®** dusty plants are covered better with spray and the herbicide also reaches depressions in the leaf's surface and adheres to them.

**COMPATIBILITY**

**SURF®** is completely compatible with various pesticides and performs well in both hard and soft water.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**MIXING SURF®**

1. Fill the spray tank about half full with water and add the required herbicide while the agitator is running or by-pass agitation is operating.
2. Add other tank mix components in the following order:
  - (a) Water soluble bags - make sure water soluble bags are completely dissolved before adding next tank mix component.
  - (b) Dry flowables - make sure herbicide is completely in suspension before adding next tank mix component.
  - (c) Emulsifiable concentrates.
3. Complete the filling of the tank with water and finally add **SURF®** under constant agitation. If tank mixing a drift control agent or anti-foaming agent, add it last.
4. For repeat loads, drain the tank to 10% or less of capacity. Follow instructions on specific product labels for mixing repeat loads.

**RATES**

**SURF®** should be mixed at the rates outlined below:  
When using hard water, apply 8-12 oz/100 Gallons of **SURF®** (i.e. 2.5 L/1000 L of spray solution).  
With soft water, the rate of **SURF®** may be lowered to 4-8 oz/100 Gallons of spray solution.

**CAUTION:** Do not graze the treated immature crops or cut for hay; there are not sufficient data available to support such use.

**WARRANTY:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**CAUTION**
